Isabella launches wind-out canopy accessories for motorhomes and campervans

Since 1957, the Danish camping brand [Isabella](#) has been known for its quality solutions for camping - from iconic awnings to functional furniture and equipment. Now Isabella is expanding its range with accessories for wind-out canopies – designed for motorhome, campervan and van owners who want more comfort, shade and privacy on the go.

Create your own outdoor space – wherever your travels take you

Isabella wind-out canopy accessories allow you to customise your outdoor space, whether you want to completely close off, shield from the wind or get more shade under the wind-out canopy. The products are designed for motorhomes and campervans - but are also suitable for caravans with wind out canopies.

"We see an increasing demand for flexible solutions for motorhomes and campervans - and that's exactly what we've designed with our wind-out canopy accessories. You can create your own little outdoor haven wherever you are," says Morten Kjeldsen, CEO at Isabella.

Flexible wind-out canopy accessories for shade, shelter and privacy on the go:

Buddy

Isabella's enclosed 'Buddy' wind-out canopy awning is ideal for those who want an extra living space under the wind out canopy. You can choose to attach only the sides and create a covered terrace, or close off completely. Buddy is easy to install and is available in several sizes to fit both campervans and larger motorhomes.

Wind Side & Wind Front

Create shelter and shade with Wind Side and Wind Front - side panels and front panels in durable material and with large windows that let the light in. Ideal for those who want to extend the time under the wind out canopy. Wind Side is available for both right and left side installation with a depth of 240 cm, while Wind Front comes in 2 widths: 120 or 220 cm.

Shade Screens (4 sizes)

The Shade Screen provides shade without closing off completely. Perfect if you want to keep the sun out but still enjoy the view. Available in four different sizes: 200 x 75, 200 x 145, 300 x 145 and 400 x 145 cm. The Shade Screen 200 x 145 cm can be placed both horizontally and vertically for extra flexibility.

Shade Curtain

An elegant curtain that mounts in the wind out canopy rail for extra shade and privacy. The curtain can be easily moved along the rail and secured with pegs if the wind picks up - so it won't flap.

Front Net (2 sizes)

The Front Net provides extra shade and privacy under your wind out canopy without completely closing off the air. Easy to put up and take down. Available in two sizes: 300 x 75 and 400 x 75 cm - ideal for both short and long stays.

Edged carpet (6 sizes)

A robust and durable carpet for the wind out canopy area. It is water-repellent, UV-resistant and easy to clean. The edged carpet features reinforced edging and pegging holes for extra stability and is available in six widths: 270, 320, 330, 370, 420 and 470 cm - all with 250 cm depth.

Shadow sun canopy

Shade space on the go. The Shadow Sun Canopy is easily installed by sliding the bead into the wind out canopy rail - a quick solution when you want extra shade or more privacy. The poles are made from CarbonX, which is known for its strong and lightweight properties. Isabella is proud to be the only manufacturer of lightweight poles with carbon fibre in camping.

Van Side & Van Front & Curtain set

Create a cosy outdoor space in front of your campervan with the Van Front (front panel) & Van Side (side panel), which are easily attached to your wind out canopy. They provide extra shelter and privacy while still allowing you to enjoy the view through the large windows. The Van Side is available in 2 versions for mounting on the right side (with door) or left side of your wind out canopy.

For extra privacy, you can add a 4-piece curtain set. The curtains are equipped with discreet metal pieces, making them easy to attach to the built-in magnets in the Van Front and Van Side - without any hassle.
